- Odia: Fluent

PROJECTS

FitFreak

FitFreak is a web based gym management app that enhances members' fitness journeys through personalized schedules and customized workout routines, alongside tailored diet plans. It offers event and class management for easy registration, progress tracking for fitness milestones, and a feedback system for service improvement. Built on the MERN stack, FitFreak securely handles user data for a smooth experience.

GeeksBuying Clone

GeeksBuying Clone is a front-end replica of the GeeksBuying e-commerce website, developed using HTML, CSS, and JavaScript. It replicates the layout, product display, and navigation structure of the original site, ensuring responsiveness across different devices. The project focuses on UI/UX design and responsive web development, offering a clean, functional interface similar to a real e-commerce platform.

ACHIVEMENTS

- **LEETCODE:** Solved 200+ questions, completed 75-question challenge, contest rating 1,552. 
- **GeeksForGeeks:** Solved 200+ questions with 37 as university ranking.
